

Logix™ Platform

The foundation for Currance's comprehensive suite of revenue cycle products

As the launching pad for the Currance suite of Yield Rev-Cycle products and services, the Logix™ Platform provides technology you can count on and security you can trust. It integrates seamlessly with all EHR and practice management systems in your network, including EPIC, Cerner, Meditech, Allscripts, NextGen and eClinicalWorks. The platform reaches across departments and locations to aggregate and organize your revenue cycle operations into a central location.

ScoreLogix™

Your window into Rev-Cycle Yield performance with actionable insights. This integrated, real-time analytics platform empowers your organization to optimize net reimbursement.

CollectLogix™

An AI and RPA-powered workflow tool to maximize efficiency and ensure consistency. Use CollectLogix™ to monitor real-time team performance and maximize labor.

RemoteLogix™

A complete remote workforce management tool that delivers the next generation of virtual infrastructure and productivity measurements.

The Logix™ Platform is SOC2 certified and complies with the highest standards in the healthcare industry. In addition to automatic back-ups, data is redundantly stored to ensure information integrity and accessibility.
